Booking Airfare for Another Employee

Process Flow (Best Practice):

How To Book Airfare using Concur:

1. Navigate to the Concur tool via the [busin.osu.edu/buy-schedule-travel/travel](http://busin.osu.edu/buy-schedule-travel/travel).
   - Select “Book Travel Online”
   - You will then be prompted to enter your OSU login credentials, this is your name.# and associated password.

   - After logging in you will receive a popup with important information to note.
   - Read the dialog box and then click “ok.”
2. Verify that all information in your Concur Profile is accurate. If all the information in your profile is complete and accurate move to the next step.

   - For more information see the document: “Completing Your Concur Profile” located at busfin.osu.edu/buy-schedule-travel/travel.

3. You will know need to switch to the profile of the employee whose airfare you will be booking.
   - Select “Profile”
   - Under “Acting as other user” select the name of the employee for whom you will be arranging flights.

   Note: If the traveler’s name does not appear in this drop down list, then they have not yet assigned you as their Travel Assistant.

   For instructions on assigning a travel assistant, see the guide titled: “Assigning a Travel Assistant in Concur”.

4. Upon switching to another users profile, the top right will change to “Administering for...” and the name of the traveler will be displayed at the top of the page.

5. Verify that all information in the traveler’s Concur Profile is accurate. If all the information in your profile is complete and accurate, you are ready to book their flights.
• For more information see the document: “Completing Your Concur Profile” located at busfin.osu.edu/buy-schedule-travel/travel.

6. Click the Tab for Mixed Flight/Train Search
   • You can search by Round Trip, One Way or Multi City if needed.
   • Departure City and Arrival City
     • The search allows you to search by specific airport, or by “area airports” so you can search multiple airports at once for the best price.

7. Enter Departure and Arrival Time Selection:
   • This search allows you to specify what time you would like to depart, or what time you would like to arrive for that particular leg. You can search by a broad time frame (morning, afternoon) or specific times. The box to the far right allows you to search on either side of the time you selected, based on the number of hours you choose.

   In the example below we told the system we would like our departure flight to arrive at its destination by 8:00 AM, and it will search + or – 2 hours from 8:00 AM. The search would return flights that arrive between 6:00 AM and 10:00 AM for the first leg.

8. Once your search parameters are chosen, select “Search”
9. After the search is complete, you will see a results matrix at the top of the page. This offers the ability to quickly filter and refine the results.
   • For instance, if you only wanted to view the nonstop options we would click “Nonstop”

10. The left panel offers other ways to quickly filter and limit your results.
• Sliding the Outbound, and Return sliders allows you to limit flights departing and arriving between more specific windows

![](image1.png)

• Sliding the “Price” slider allows you to quickly cap the maximum fare amount you would like to see.

![](image2.png)

• Display settings provide further refinement for viewing only refundable fares, flights departing & returning from the same airport, as well as excluding flights on propeller planes.

11. Once you have filtered your flights, and found the one you would like; select the blue button displaying the price for that flight.

**NOTE:** If you encounter fares with yellow warning symbols, see the guide titled “Avoiding Basic Economy Fares” located at [busfin.osu.edu/buy-schedule-travel/travel](http://busfin.osu.edu/buy-schedule-travel/travel).
12. You will now review your flight information and be able reserve your flight, for a short time before purchasing it.

**NOTE:** You are not yet purchasing your airfare, only reserving it. Reserving your flight does not secure your tickets, in order to ticket your trip the booking process must be followed all the way through.

13. Verify that your selection meets your needs.

14. Verify that the Primary Traveler’s information appears correctly. If this info is not correct you can change it in the Traveler’s Concur Profile.
   - For more information see the document: “Completing Your Concur Profile” located under at busfin.osu.edu/buy-schedule-travel/travel.

   **NOTE:** The phone number displayed here will be the number communicated to the airline so they may notify you of itinerary changes and updates. If this is not correct, change the “Work Phone” under your profile.

   - If available, you can click “View seatmap” and choose which seats you would like to request from the airline.

**NOTE:** Clicking “Cancel” will result in cancelling your reservation, and you will have to restart the booking process.

18. After selecting “Next” you will have one last time to review all your selections and entries. Verify that all the details are accurate, and when you are happy with your trip, scroll to the bottom and select “Purchase Tickets”

• You will then be directed to a confirmation page, where you can make note of your agency assigned Trip Record Locator.
• Within 3-5 minutes you should receive and email from Concur, confirming your booking was received by the travel agency. At that point your trip will go through a quality control process at Corporate Travel Planners, and then be ticketed.
